PROFESSIONAL SUMMARY

Results-driven Product Manager with 14+ years of experience driving product strategy, roadmap development, and user-centric feature delivery across digital banking, SaaS, and enterprise platforms. Proven track record of leading cross-functional teams, conducting user research, and translating data insights into measurable business outcomes. Skilled in Agile methodologies, A/B testing, stakeholder management, and go-to-market execution. Currently building OwnYourTwin, an AI-powered synthetic user research platform focused on data sovereignty.

PROFESSIONAL EXPERIENCE

Product & Performance Lead, June 2024 – Present
Bank of Montreal (BMO), Toronto, ON, Canada

- Owned the product roadmap and performance strategy for a Canadian digital banking platform serving millions of users, leading migration of on-premise services to AWS Lambda and reducing deployment cycle time by 40%.
- Conducted end-to-end user research and CSAT analysis pre- and post-migration; achieved a "Very Satisfied" satisfaction benchmark by optimizing API response times and reducing latency bottlenecks.
- Partnered with engineering, QA, and cloud teams in an Agile framework to prioritize backlog, define acceptance criteria, and deliver iterative releases on schedule.
- Led offshore performance engineering team across sprint planning, capacity management, and stakeholder reporting, improving team throughput by 25%.

Product Lead – CashPro Mobile, July 2023 – June 2024
Bank of America, Toronto, ON, Canada

- Managed the CashPro Mobile product roadmap for global wholesale banking, driving a 7% uplift in user retention through targeted performance improvements and feature prioritization.
- Spearheaded high-impact initiatives, including mobile cheque deposits and cross-border remittance flows, increasing user engagement by 11% via A/B testing and behavioural data analysis.
- Collaborated with design, engineering, and compliance stakeholders to define user stories, prioritize features using ICE scoring, and ship production-ready releases.

Senior Product & QA Manager, Mar 2021 – Feb 2023
MTX Group Inc., Bengaluru, India

- Drove a 663% revenue increase from $157K to $1.2M in 14 months by optimizing user journeys for U.S. public sector SaaS platforms covering healthcare, childcare grants, and licensing.
- Defined product strategy and MVP roadmaps in partnership with Sales and Marketing for GTM execution; standardized performance portfolios across 6+ client engagements.
- Identified critical UX friction points through user research and stakeholder interviews; delivered seamless end-to-end flows via rapid prototyping and iterative testing cycles.

Quality & Product Strategy Lead, Aug 2014 – Jul 2020
SAP Labs India Limited, Bengaluru, India

- Managed microservices quality strategy for SAP Concur; improved test coverage by 40% and reduced deployment time by 37% through Agile coaching and cross-functional collaboration.
- Developed product strategies for SAP Lumira, leading the product lifecycle from MVP to GA; defined and tracked KPIs to identify revenue-driving funnels and optimize feature investments.
- Acted as Agile coach across 3 scrum teams, facilitating sprint ceremonies, removing blockers, and improving velocity by 20% over two quarters.

Software Engineer – Product & Performance, Jun 2010 – Aug 2014
Accenture Services Pvt. Ltd., Bengaluru, India

- Optimized e-commerce platform performance for Tesco UK, contributing to a 17% increase in Black Friday revenue through load/stress testing and bottleneck resolution.
- Led performance testing for Heineken's SAP GUI and CRM systems, scaling order processing capacity by 83% from 30K to 55K transactions per hour.

PRODUCT MANAGEMENT PROJECTS

OwnYourTwin (Founder) — AI-Powered Synthetic User Research Platform

- Building a B2B SaaS platform enabling data-sovereign synthetic user research using digital twin technology; conducting customer discovery interviews, developing a pitch deck, and engaging VC/accelerator pipeline (CDL, Forum Ventures, NFX).

Boostcamp (Fitness App) — PM Case Study

- Identified core churn driver for a 15M+ download fitness app; designed Auto Progression Flow with performance-based weight recommendations; projected +10% Pro tier conversion lift through ICE-scored feature roadmap and Figma prototypes.

Kwalifier — B2C Credit Card Discovery Tool (PRD)

- Developed end-to-end PRD for a RAG-based credit card recommendation engine, including user personas, prioritized user stories, success metrics, and go-to-market strategy.

AI Adoption Research — User Interviews & Insight Synthesis

- Conducted structured user interviews using Mom's Test methodology to explore why professionals stall between basic and advanced AI usage; synthesized findings into dashboards, mind maps, and root cause analyses.

n8n Workflow Automation — App Store Research Pipeline

- Built an automated n8n workflow that scrapes App Store and Play Store reviews daily to surface product feedback signals, enabling continuous discovery without manual research effort.

SKILLS

Product Management: Roadmap Development, Feature Prioritization (ICE/RICE), User Research, A/B Testing, Go-To-Market Strategy, Stakeholder Management, Agile/Scrum, Sprint Planning

Technical Skills: SQL, Figma, Jira, Miro, Google Analytics, Mixpanel, AWS (Lambda), Dynatrace, Google AI Studio, Claude Code, n8n Workflow Automation, Google Stitch

AI & Emerging Tech: Generative AI, LLMs, RAG Architecture, Synthetic Data, AI Product Strategy, Prompt Engineering

Leadership: Cross-functional Collaboration, Team Empowerment, Offshore Team Management, Strategic Vision, Analytical Acumen

EDUCATION & CERTIFICATIONS

Bachelor of Engineering, Electronics & Communication Engineeringc2005 – 2009
Rajiv Gandhi Prodyogiki Vishwavidyalaya (RGPV), Bhopal, India

Product Management Specialization, April 2024 – September 2024
HelloPM
